

EXHIBIT A

Nishiyama

second rotor section 3

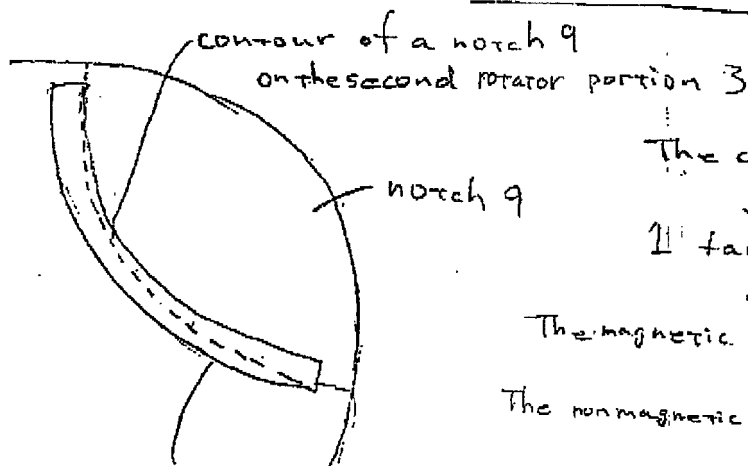

If 2 contacts 3 without nonmagnetic member 5 (Fig. 1 of Nishiyama), magnetic flux leakage toward axial direction occurs in circled areas.

magnetic flux pass 37 (made of steel)

permanent magnet 6 in the first rotor section 2
(Please note 3 does not have a notch.)

Present invention

EXHIBIT B

permanent magnet 1 in the first rotor portion 2

The contour of 9 and 1 opposes.

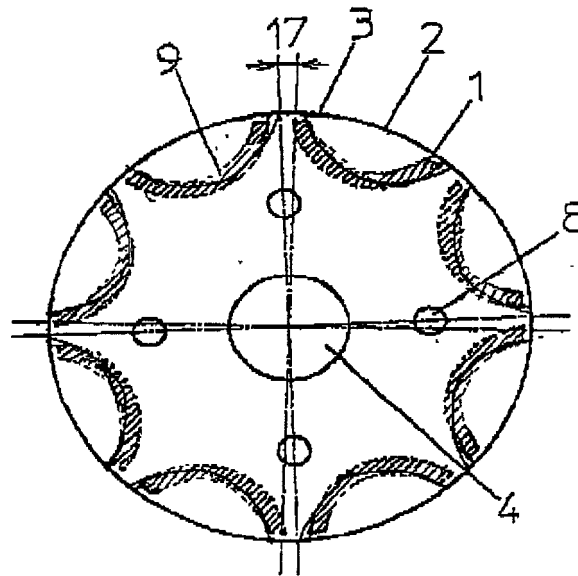

⇓
11 faces air (notch 9)

⇓
The magnetic flux leakage does not occur.

⇓
The nonmagnetic member is unnecessary.
